

AIRCRAFTPLUGS 3 POLES RUBBER REFERENCE NUMBERS

Plugs are delivered with contact lugs and grommets.

Powercontacts are machined copper and silver plated. Contact lugs may be either crimped or soldered to cables.

<u>Config</u>	<u>Catalog No Part plug</u>	<u>Military part number</u>	<u>Cable accomodation</u>	<u>Catalog No Portable receptacle</u>
<p>The diagram shows a rectangular plug with three terminals on the right side. The terminals are numbered 1, 2, and 3 from top to bottom. Terminal 1 is associated with a minus sign (-) and terminal 2 with a plus sign (+). Terminal 3 is unmarked. Each terminal has a corresponding contact lug extending to the right.</p>	ACP3P1	MS25488-25	2-1/0 MIL-C-5756	ACP3R1
