

The Aircraftplugs Plugtite aperture

Prevent leaking during maintenance

Designed and used to prevent the leakage and contamination of various fluids, including hydraulics, and chemicals, during the service, maintenance, and storage of machinery and equipment.

The Aircraftplugs aperture has been designed and engineered to give

the plug greater compression than standard solid plugs ensuring a perfect seal whilst still being able to cut to size if needed.

Used in Industrial areas such as hydraulic GSE environment, chemical, processing, MRO, HVAC, Mining, Heavy equipment

 Aircraftplugs®

Main usage

Designed and used to prevent the leakage and contamination of various fluids, including hydraulics, and chemicals, during the service, maintenance, and storage of machinery and equipment. The aperture has been designed and engineered to give the plug greater compression than standard solid plugs ensuring a perfect seal whilst still being able to cut to size if needed. Used in Industrial areas such as hydraulic, chemical, processing, MRO, HVAC, Mining, Heavy equipment.

Also available in Heat Resistant and FDA approved version

Maintenance plug Hygiene is specifically produced for use in the food and beverage processing industry. The use of Plugtite rubber FDA approved plugs helps to ensure that sensitive working areas are kept free of contamination from oils and other fluids by preventing leakage when cleaning and servicing machinery and equipment.

Heat Resistant for use in operations such as Electrostatic lines, die casting etc. where high heat resistance is a requirement.

Suitable for Industrial areas such as hydraulic, chemical, processing, MRO, HVAC, Mining, Heavy equipment.

Standard characteristics

- Greater resistance to most oils within temperature range from -25°C up to 90°C
- Does not shrink, leak or discolor
- Resistant to sunlight for greater shelf life, does not split/crack or deteriorate
- Easy to use. Insert, squeeze , press home and release
- The compressed rubber ensures a tight fit
- Different colors available.
- Made in Belgium.
- Different sizes.

Part Numbers :

ACP-T-1 : Full kits of 3 different sizes.

ACP-T-2: Small (2mm - 14mm)

ACP-T-3: Medium (5mm - 24mm)

ACP-T-3: Large (15mm - 45mm)
